Dear Sir:

I am writing you to apply for the Lecturer position in Computer Science and Engineering at your university. I am extremely interested in this position of your university as my commitment to undergraduate education, interest, and experience in academic as well as competitive programming background makes me a terrific fit.

My objective as a teacher is to make the course topics more interesting and give them clear concept such that they don't memorize but try to visualize and a great communication to encourage and prepare them for Programming Contests and research.

Highlights of my qualification includes-

- **1st Class 6th with Honors** in B. Sc. in Computer Science and Engineering at Rajshahi University of Engineering and Technology, Rajshahi, Bangladesh,
- **Four Month experience** in teaching and **programming contest coordinator** at University of Information Technology and Sciences,
- **Four years long competitive programming experience** to do good in competitive programming contest as well as in academic,
- **Programming Camp instructor** experience to teach students programming, algorithms, and data structures more effectively,
- **Five software project development** experience to teach students developing software from scratch, and
- **One academic year research experience** in Natural Language Processing which will encourage students about research.

I am very excited about the opportunity of joining at your university. I will gladly provide any supporting materials upon request.

Thank you for your consideration and I look forward to hearing from you soon.

Sincerely,

(Habibur Rahman)
