Registrar,
Fareast International University,
House 50, Road 11, Block C,
Banani, Dhaka – 1213,
Bangladesh

Dear Registrar:

I am writing you to apply for the Lecturer position in Computer Science and Engineering at Fareast International University announced in the bdjobs.com. I am extremely interested in this position of your university as my commitment to undergraduate education, interest, and experience in academic as well as competitive programming background makes me a terrific fit.

My objective as a teacher is to make the course topics more interesting to students because most of the students are trying to memorizing the topics and a great communication with students to learn about their feedbacks.

Highlights of my qualification includes-

- Recently completed B. Sc. in Computer Science and Engineering from Rajshahi University of Engineering and Technology, Rajshahi, Bangladesh,
- Four years long competitive programming experience to do good in competitive programming contest as well as in academic,
- Programming Camp instruction experience to teach students programming, algorithms, and data structures more effectively,
- Five software project development experience to teach students developing software from scratch, and
- One academic year research experience in Natural Language Processing and Data Mining & Machine Learning to encourage students about research and higher studies.

I am very excited about the opportunity of joining at your university, and I am enclosing my curriculum vitae. I will gladly provide any supporting materials upon request. Thank you for your consideration and I look forward to hearing from you soon.

Sincerely,

(Habibur Rahman)
